

Information Evening – Hawkes Bay

	<i>Transition</i>		
	Arts, Humanities, Social Sciences, Sustainability & Creative Arts	Science	Digital Screen
	<i>Transition</i>		

In the _____ you can follow your passion and gain the critical thinking, creative problem solving and communication skills that employers need – skills that open up opportunities for careers in a wide range of sectors.

Also in this session, you'll hear about:

-
-
-
-
-

Hear how UC's [Psychology](#) students deal with real people with real problems as part of our innovative clinical studies programme.

Then learn how our [Criminology](#) draws together UC's expertise in criminology, sociology, developmental and abnormal psychology, policing, criminal law and procedure, and human services.

The [Environmental Science](#) is about understanding one another and how we interact with the natural world through observation, experimentation, modelling and calculation. Learn how to investigate the big issues confronting our planet, such as climate change, human health and diseases, the global water crisis, food security, environmental protection and much more.

The [Product Design](#) combines creative design, science, engineering, and business studies. As a product designer, you'll plan and develop items for use in homes, businesses, and industry. Our graduates are highly sought after, with the creative skills and business knowledge to work in a range of occupations.

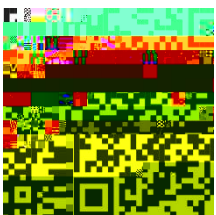

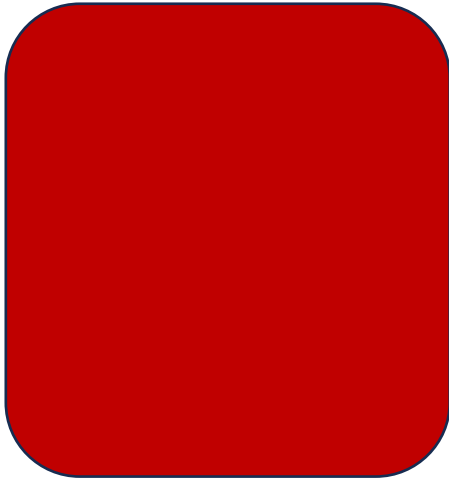

You'll hear details about the three majors:

- Chemical Formulation Design
- Applied Immersive Game Design
- Industrial Product Design

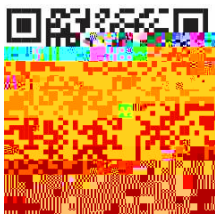

Delve into the intricate workings of the human mind with psychology, a captivating journey into the interplay between biology, thinking, feeling and behaviour in humans and other animals. Discover the mysteries of the brain's mechanisms and their profound impact on individual action, collective behaviour, and mental health. Psychology can be studied in UC's brand-new

[Psychology](#) or other bachelor degrees such as Arts, Health Sciences, Commerce and Science. Course choices can be customised to complement your study preferences.

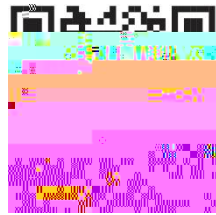

- UC Accommodation Services publish a *UC Guide to Flatting* online.
- They've also launched a new platform to assist students finding student accommodation called www.canterbury.ac.nz/life/accommodation/private/
- [UniLife](#) is a free, year-long social mentoring programme for first year students not living in halls.
- UniLife is
